Afrikstart Crowdfunding Africa

Founded in 2016

<https://www.afrikstart.com>

"Afrikstart is a one-stop crowdfunding platform to fund, train, and mentor African entrepreneurs. Afrikstart strives to provide a web and mobile platform where entrepreneurs in Sub-Saharan African can get access to affordable funding. Afrikstart is the place for ambitious African entrepreneurs to connect and raise funds from backers worldwide. We focus on supporting and empowering talented Entrepreneurs across Africa who will create the jobs and businesses that will spur economic growth in Africa. Afrikstart started as an entrepreneurial project and was incubated during the online course Technology Entrepreneurship with Stanford University, then with the impact-focused non-profit global venture fund Acumen."

Bassita

Founded in 2014

<http://bassita.org>

"Clickfunding is an Egyptian innovation that allows web users to contribute to projects with their web and social media engagement. It does not get any simpler than this; just by clicking, watching, and interacting on videos we produce to promote for projects or causes, web users can create concrete impact. It is game of matching projects and causes to sponsors, whom are willing to provide monetary assistance in exchange to web visibility, and then connecting campaigns on these cause to social media enthusiasts."

DreamWallets

Founded in 2015

<https://www.dreamwallets.com>

"DreamWallets (DW) is a first of its kind online collaboration platform that focuses on the concept of Crowd Funding - an age old concept of raising funds from large number of supporters who feel for a cause or an idea and Crowd Sourcing - people coming and working together to help turn dreams into reality. DW offers you an online collaboration platform for raising funds for ideas from a community of people who share your dreams and passion. In return, backers gets rewarded in non-monetary ways with rewards that, otherwise, money can't buy. We, at DW, have added dimensions of accountability, transparency, and novelty around the concept."

Launch Good

Founded in 2013

<https://www.launchgood.com>

AlliedCrowds

"LaunchGood was started as a community and ecosystem to revive that spirit of creativity and entrepreneurship that elevated Muslims globally for centuries. It is a place to support great ideas in the community and also challenge ourselves to think bigger. It is a network that insists the ummah is still alive in our hearts, that we are connected no matter where we are. It is our showroom to the world of all the great things Muslims are capable of. Could a Muslim write the next Harry Potter novel, create the next Lord of the Rings trilogy, or discover the next great vaccine? We firmly believe so, that's why we're here. We invite you to be part of our global community to launch great projects, both as a supporter and a project creator. Together, we can change our communities, our countries and the world - one project at a time!"

LendWithCare Organization

Founded in 2010

<https://www.lendwithcare.org>

"Lendwithcare Organization is an initiative of CARE International UK which connects people around the world who want to make a difference by facilitating small loans to entrepreneurs in developing countries so that they can work their own way out of poverty with a small loan. Lendwithcare allows you to lend as little as £15 to fund a small business and once your money is repaid you can choose to recycle your loan to support another poor entrepreneur, or withdraw your money. Lendwithcare is currently working in ten countries. See how Lendwithcare works here. Lendwithcare is an initiative of poverty fighting charity, CARE International UK. 100% of the money loaned through Lendwithcare goes to the entrepreneur so please consider becoming a Lendwithcare Angel and making a monthly donation to help us expand Lendwithcare to even more countries and help more people out of poverty."

MEEFUND

Founded in 2016

<https://www.meefund.com>

"Wouldn't it be great if creators with great ideas and talent have a 'place' to tell their story, share their dreams and allow supporters to back their ideas to reality. MEEFUND.com is carefully crafted from the experiences of business and financial consultants who aim to see new phenomenon in Asia via reliable online crowdfunding platform. We love to see new ideas come to life! MEEFUND would bond the 'hands of the creators' to 'hands of the supporters' to blend those dreams to reality. Through the mechanism of crowdfunding, MEEFUND would shift creators' behaviors to be able to gauge the adoption of the crowd before gaining funding for their projects. Supporters would also be able to visualize what they support before anyone else and gain limited and personal rewards from creators. Professional consultants at MEEFUND could also help filter ideas and fill in business gaps to ensure creators success. So, if you have great ideas and dreams to create something. Start projects with MEEFUND"

SkolaFund

Founded in 2014

<https://skolafund.com>

"Skolafund is web platform for students, especially the ones in need, to crowdfund their scholarships for higher education. Our mission is to make higher education affordable and accessible to those who qualify. We believe that no one should be deprived of quality education just because they cannot afford it.\n\nSkolafund first went online in April 2015 with an Alpha Website. The Alpha lasted till August 2015. Throughout this four months, our platform raised near RM 25,000 for 6 students, funded by 125 members of the community. Seeing the strong support and encouragement, we decided to enhance the website further, to make it more user-friendly, with an infrastructure that would be able to support more scholarship campaigns. Hence, this Beta version.\n\nWe have a big vision. We aspire to be the biggest higher education financing platform in Asia by providing better alternatives for students to finance their higher education. Crowdfunding is just the first step for us. We have big plans. Moving forward, we aim to introduce more solutions for students to benefit from to fund their higher education. To make this happen, we hope to get your continuous support"

The Spark Project

Founded in 2010

<http://www.thesparkproject.com>

"The Spark Project is a community for Filipinos to support and crowdfund projects that are creative, innovative, and passion-driven. It is a local platform that showcases projects to like-minded people who are willing to pitch in money for something compelling and worthwhile. These supporters, called backers, get rewarded when they fund a project. These rewards may range from a personalized thank you note to a limited edition product; all mindfully conceptualized by the project as a thank you to their backers. \r\n\r\n"

Tswanda

Founded in 2015

<https://www.tswanda.co.zw>

"Tswanda is about giving. A platform where common people raise funds, get contributions from ordinary people like, you and me, THE CROWD. Tswanda removes the physical barriers traditionally associated with receiving financial support from the people in our lives. Ordinary people and organizations create campaigns on our platform and request donations from friends, family, and the general public. The contributions enable them to turn their powerful ideas into reality and change the world around them."

seedX

Founded in 2014

<https://seedx.in>

"SeedX is an online ecosystem for early stage companies - from funding to service providers to consulting. Apart from raising funds through reaching out to investors on SeedX, startups can also avail of offline advisory (M&A/ JV advisory to specialised consulting assignments). While it may be argued that this has been done in many different ways and there are a number of accelerators & incubators in India, we believe SeedX is different for the following reasons: A) SeedX will alter the profile of the angel investor in India. Angel investing has traditionally been the preserve of a wealthy few. SeedX seeks to change this by creating a platform & environment for investors with surplus capital in the range of Rs.10-20 Lakhs to participate in the investment & value creation process across 2-3 early stage ventures. We believe this could be disruptive given the number of angel investors this will attract and could fundamentally alter the angel investment landscape. B) While existing accelerators and incubators are a valuable part of the ecosystem, they do not provide dedicated advisory to startups. Startups seek not just funds but many inputs and guidance as they grow, services not catered to by the bigger advisory firms. SeedX+ will be the umbrella of services provided by the platform that are contextualised to the need & environment of early stage ventures. These services will be delivered by the core team at SeedX in partnership with an empanelled list of advisors / consultants each of whom would bring specific skills and capabilities to the table."
